## A RETREAT SEMINAR

# Treatment Strategies for the Organ Systems: **Heart & Liver**

**With Volker Scheid <sup>PhD</sup>  
& Cinzia Scorzon <sup>MSc</sup>**

**An Advanced Course  
for Acupuncturists  
and Herbalists**

**PLUS Volker Scheid's**

**Discussions on  
Menopause  
One Day Seminar**

**A TRUDY ZIPF & SUE COCHRANE  
COLLABORATION**

## FOUR DAY ADVANCED INTENSIVE RETREAT

### Getting to The Heart of The Matter. In Depth Explorations. A Rare Opportunity.

A fully packed and dynamic Advanced Intensive with two of Europe's most engaging TCM team presenters in a retreat seminar.

An in-depth exploration of issues related to the Heart & Liver looking from both herbal and acupuncture perspectives.

This will be for experienced practitioners only. Drawing from across all periods of Chinese Medicine & presenting vast clinical experience.

**"Effective practice thus requires grasping disease as process and not as a thing or state".**

- feel more confident in tackling complex disorders
- provide you with the ability to focus on what is essential
- to help you gain a more in-depth understanding of the Chinese medical tradition
- practical information to deepen our understanding

## The Heart & The Liver

**For each system, an in-depth review of its physiology and pathology based on a reading of classical sources. This will help you gain a more solid understanding of the body in health and disease. Followed by a review of core treatment strategies for addressing pathologies of Liver and Heart systems- from both an acupuncture and herbal medicine perspective.**

Discuss various strategies to treat the Liver: Based on the work of famous Qing dynasty physicians such as Ye Tianshi and Wang Xugao, while also drawing on older as well as more modern authors.

Strategies for treating the Heart: Based on physicians from all periods of the history of Chinese medicine.

Pay particular attention to the Heart's role in the production of blood, as outlined in the *Inner Canon* and it's regulation of the body's yang qi, which is emphasized by the physicians belonging to the cold damage current. The Heart's role in the treatment of emotions through the work of physicians such as Sun Simiao and Fei Boxiong.

Differentiate the function of the Heart from that of the

Pericardium through the work of authors in the warm pathogen disorder current, such as Ye Tianshi and Wu Jutong

### ABOUT VOLKER SCHEID

PhD. Visiting professor (Zhejiang University of

TCM, Hangzhou). Medical anthropologist. Research fellow at University of Westminster. Volker has been a practitioner of East Asian Medicine for over 25 years. He is the author of much acclaimed "Chinese Medicine in Contemporary China"; "Currents of Tradition in Chinese Medicine" and co-authored "Chinese Herbal Medicine: Formulas & Strategies (2<sup>nd</sup> Edition)". Recently, his interests have moved towards examining how East Asian medical traditions may be integrated into contemporary health care without thereby losing their independence and effectiveness. He directs a new interdisciplinary centre EASTmedicine for research, teaching and clinical practice in London. Volker lectures regularly at TCM institutions in Europe and the USA. He has given most popular lectures at WFAS and AACMA conferences in Australia. His incredible wealth & depth of knowledge is most inspiring! Volker's web-site is [www.volkerscheid.co.uk](http://www.volkerscheid.co.uk).

### ABOUT CINZIA SCORZON

MBAcc. MSC Chinese Medicine. Northern College of Acupuncture, York. Cinzia graduated in Acupuncture 1984 and has practiced since. She is also a homeopath. She learnt Chinese language in Shanghai and studied with several well-known Chinese physicians. Cinzia also worked with Father Claude Larre (until his death in 2001) and Elisabeth Rochat de la Vallee; they had a profound influence on her understanding of Chinese Medicine. Teaching in the UK and Europe, Cinzia is one of the founders of the European Institute of Oriental

Medicine in Munich, where she has been lecturing regularly since her return from China in 2001. She is a senior lecturer & clinical supervisor at the University of Westminster, London. Cinzia published several articles in professional journals. Presenting with her husband Volker, Cinzia will focus on acupuncture treatment strategies in clinical practice.

## Discussions On Menopause.

**One Day Seminar with Voker Scheid. The Classical, the Contemporary, the Research, the Practical: Everything There Is to Know on Menopause.**

Discussions on the implications and treatment of Menopause, both from a TCM and current research perspective, spiced with a wealth of clinical experience. The treatment of menopause is a constant challenge in TCM practice and the clinical applications of further learning are enormous. Volker heads a huge research project on *Developing Chinese Medicine Treatment Protocols for Menopausal Syndrome*. We look at TCM textbook accounts & national standards for the treatment of menopausal syndrome and their discontents: history of TCM treatment of menopause; universal pathology and locally different experiences of menopause. Then the non-TCM approaches in East Asian medicine to the treatment of menopause: overview of treatment strategies in Japan, Korea, Taiwan and mainland China case record literature. Most importantly, sharing experiences in treating menopause: the vast practical data gathered in the Westminster menopause study; and personal experiences.

This is a seminar not to be missed! Fully packed with in-depth explorations and some controversy.
